UNITED STATES DEPARTMENT OF AGRICULTURE

SOIL CONSERVATION—INDEX TO VOLUME V

JULY 1939 TO JUNE 1940

Page

Agricultural engineering and farm planning. Howard Matson 167–169, 195
Agriculture—
lost, of Trans-Jordan. (V) W. C. Lowdermilk 228–231
primitive, of the Southwest, conservation practices. Guy R. Stewart 112–115, 131
Agronomy, wheel charts for. Harry H. Gardner .. 118–119, 131
AHLSON, CHARLES B.: Orchard, Cover Crops in the Pacific Southwest Region 66–67
Ahtanum Creek watershed, husbanding soil, grass, and water on 95–96
ALLABAND, WILLIAM A.: The Rehabilitation of Families in Maintenance Workers Units on the Pensacola Land-Use Project 108–111
ALLIN, BUSHROD W.: The Farmers Are Heard From 29–31
ALLRED, B. W.: The Role of Needle-and-Thread Grass in the Great Plains 290–292
Arizona, Kayenta, wind erosion demonstration project 42–43
ATKINS, S. W.: Farm Labor in a Soil Conservation Program 301–303

BAILEY, R. Y.—
A Grazing Program for Soil Conservation in the Southeast 243–244, 253, 259
The Use of Kudzu on Critical Slopes 48–50
Ballot, letter, in Michigan district. F. E. Charles 282
Bankhead-Jones Farm Tenant Act, Title III, management of lands held under. Edward G. Grest 204–206, 215, 220
BATES, C. H.: Hubam Clover in the Texas Blacklands 90–92
BELL, HERSHEL M.: Stockman's Records Reflect Proper Land Use 10–11
BELL, HUGH STEVENS: The "Wheels" of Erosion 288–289, 308
BENNETT, H. H.—
comment on wildlife destruction 92
Cooperative Farm Forestry—Another Avenue to Better Land Use 135–137, 163
The Common Bond of Land Use 197–200
Bermuda, one-time pest, now a Southern favorite. Edgar A. Hodson 52–54
Bibliographies, soil conservation. Etta G. Rogers. *See* each issue.
Biologic balance on the farm. W. L. McAtee 97–99
BISSELL, PAUL: The Growth of Liming 14–16
BLACK, A. G.: Soil Conservation Strengthens Credit Ratings 298, 308
Blacklands of Texas—farmer cooperation in. William H. Witt 87–90
growing Hubam clover. C. H. Bates 90–92

Page

Book reviews and abstracts. Phoebe O'Neall Faris. Each issue except February and May.
BORST, H. L.: Contour Cultivation Studies With the Rain Simulator. With Russell Woodburn 12–13, 16, 20
BROWN, GROVER F.—
Factors in Pasture Management in the Northeast 254–255
Mulching Northeastern Orchards 45–47
Brush, cutting and utilization in erosion control. J. W. Deppa 83–84, 86, 92
BUNCE, ARTHUR C.: Some Economic and Social Problems of Soil Conservation 73–76, 82

Camera "stops" a moving object. J. Otis Laws 101
Caribou, woodland, in Minnesota, William T. Cox. 138–143, 156
CHAMBERS, T. B.: Soil Conservation Engineering 165
CHARLES, F. E.—
Michigan District's Letter Ballot 282
Modified Practices for Michigan's Fruit and Truck Country 93–94, 96, 99
Charts, wheel, for agronomy. Harry H. Gardner ... 118–119, 131
Chenango Valley, observations on a flotation type of erosion. C. W. Rose 299–300
Cities, hundred dead, and erosion at its worst. (III) Walter C. Lowdermilk 157–162
CLAYTON, C. F.: Land Utilization and the National Welfare 201–204
Clover, Hubam, in Texas Blacklands. C. H. Bates 90–92
COLLINS, WILKIE, JR.: Crested Wheatgrass on Denuded Range and "Go-Back" Land 59–60, 63, 67
Colorado, Baca County, land purchase and development program. Norman G. Fuller 213–215
Conservation—
practices in primitive agriculture of the Southwest. Guy R. Stewart 112–115, 131
program, use of giant wild-rye. Lowell A. Mullen 1–3
soil. *See* Soil conservation.
Contour—
balk method, another look. B. H. Hendrickson 36–37, 40
cultivation studies with the rain simulator. H. L. Borst and Russell Woodburn 12–13, 16, 20
following in order to improve the meadows. R. W. Gerdel 27–29
planting, use of orchard disk especially suited to Henry Clay Lint 304–305
Corn Belt, grazing management for permanent pastures. M. A. Hein 248–250
CORNELIUS, DONALD R.: Side-Oats Grama for Erosion Control 3–6

243730—40

County— Page
group planning 31
planning summary. D. A. Fitzgerald 278–279
Cover crops, orchard, in the Pacific Southwest region. Charles B. Ahlson 66–67
Cox, William T.: Woodland Caribou in Minnesota 138–143, 156
Credit ratings, strengthening through soil conservation. A. G. Black 298, 308
Crop rotations, combination with tillage rotations in Pacific Northwest 64–65, 72
Cropland, relation to pasture. Walter V. Kell 239–242, 258
Cropping, strip, inheritance in France. (I) W. C. Lowdermilk 85–86

Dairy stock, pasture management for. Liter E. Spence 9
Daniel, Harley A.: Revegetative and Gully-Control Experiments in the Red Plains Region. With H. M. Elwell, and J. W. Slosser 17–19, 20
Demonstration projects, run-off studies, some preliminary results. D. B. Krimgold, John L. Weber, and N. E. Minshall 186–190, 194
Deppa, J. W.: Cutting and Use of Brush in Erosion Control 83–84, 86, 92
Disk, orchard, especially suited to contour planting. Henry Clay Lint 304–305
Dismuke, Dewey: Range Management Brings Success to Isleta Indians 34–35
Drainage problems. John G. Sutton 179–182, 194
Duncan, Otis Durant: A sociological View of Soil Conservation 274–277, 284
"Dust Bowl" which was Utah's. Frank J. Hale 38–40

Economic—
advantages and limitations of soil conservation on Illinois farms. E. L. Sauer 269–271
and social considerations in farm planning. E. H. Reed 285–287, 300
problems of soil conservation. Arthur C. Bunce 73–76, 82
Elwell, H. M.:
Revegetative and Gully-Control Experiments in the Red plains Region. With J. W. Slosser and Harley A. Daniel 17–19, 20
Engineering—
agriclutural, and farm planning. Howard Matson. 167–169, 195
conservation, research problems. Mark L. Nichols 183–185, 194
soil conservation. T. B. Chambers 165
See also under specific kind.
England, rural, field boundaries in. (VI) W. C. Lowdermilk 280–281, 284
Erosion—
at its worst, and a hundred dead cities. (III) Walter C. Lowdermilk 157–162
control—
cutting and using brush in. J. W. Deppa 83–84, 86, 92
lessons from Old-World Experience. (I) Strip Cropping by Inheritance in France. W. C. Lowdermilk .. 85–86
lessons from Old-World experience. (II) Fish Ponds and Fields in Rotation. W. C. Lowdermilk 123–126
lessons from Old-World experience. (III) Erosion at its worst, and a hundred dead cities. Walter C. Lowdermilk 157–162

Erosion—Continued.
control—Continued. Page
lessons from Old-World experience. (IV) Precedents in the Control of Waters. W. C. Lowdermilk 191–194
lessons from Old-World experience. (V) The Lost Agriculture of Trans-Jordan. W. C. Lowdermilk. 228–231
lessons from Old-World experience. (VI) Field Boundaries in Rural England. W. C. Lowdermilk. 280–281, 284
reduces sedimentation 42
use of side-oats grama. Donald R. Cornelius 3–6
flotation type in Chenango Valley, observations. C. W. Rose 299–300
streambank, halting by willow mats. L. B. Morehead. 127, 131
"wheels" of. Hugh Stevens Bell 288–289, 308
wind, damage checked in Navajo land. J. Nixon Hadley and David Rogers 42–43
Ewing, Paul A.: Snow Surveying. With James C. Marr 144–147

Families, in maintenance workers units, rehabilitation on Pensacola land-use project. William A. Allaband 108–111
Faris, Phoebe O'Neall: Book Reviews and Abstracts. Each issue except February and May.
Farm—
biologic balance on. W. L. McAtee 97–99
forestry, cooperative, another avenue to better land use. H. H. Bennett 135–137, 163
in Ohio, story of 272–273
labor in a soil conservation program. S. W. Atkins ... 301–303
planning—
and agricultural engineering. Howard Matson. 167–169, 195
social and economic considerations. E. H. Reed. 285–287, 300
ponds in soil and moisture conservation. H. G. Jepson .. 77–82
Farmer cooperation in Blacklands of Texas. William H. Witt 87–90
Farmers are heard from. Bushrod W. Allin 29–31
Farms, soil conservation on, economic advantages and limitations in Illinois. E. L. Sauer 269–271
Field boundaries in rural England. (VI) W. C. Lowdermilk 280–281, 284
Fields, and fish ponds in rotation. (II) W. C. Lowdermilk 123–126
Fish ponds and fields in rotation. (II) W. C. Lowdermilk 123–126
Fitzgerald, D. A.: County Planning Summary 278–279
Flood control measures are conservation measures 236
Florell, V. H.: High Crop-Stubble and Snow Conservation 223–226
Flory, Evans: The Role of Reseeding in Restoring Southwestern Ranges 61–63
Flotation type of erosion, observations in Chenango Valley. C. W. Rose 299–300
Forage, more and better returns 259
Forecasts, run-off based on snow surveys, factors affecting. W. W. McLaughlin 148–151, 163
Forestry, farm, cooperative, another avenue to better land use. H. H. Bennett 135–137, 163
France, inheritance of strip cropping. (I) W. C. Lowdermilk 85–86
Fruit, growing in Michigan, modified practices. F. E. Charles 93–94, 96, 99
Fuller, Norman, G.: The Land Purchase and Development Program in Baca County, Colo 213–215

GARDNER, HARRY H.— Page
Protected Waterways 55–56
Wheel Charts for Agronomy 118–119, 131
GERDEL, R. W.: Follow the Contour and Improve the Meadows 27–29
Grama, side-oats, for erosion control. Donald R. Cornelius. 3–6
Grass—
husbanding, practices on Ahtanum Creek watershed 95–96
needle-and-thread, role in Great Plains. B. W. Allred. 290–292
Grassland management, different systems, run-off under. H. C. Knoblauch and J. L. Haynes 256–258
Grazing—
management for permanent pastures in Corn Belt and Northeastern States. M. A. Hein 248–250
program for soil conservation in Southeast. R. Y. Bailey. 243–244, 253, 259
Great Plains—
role of needle-and-thread-grass in. B. W. Allred 290–292
southern,—
planning for. Roy I. Kimmel 120–122
regrassing in, progress. Sidney H. Watson 57–59
GREST, EDWARD G.: Management of Lands Held Under Title III of the Bankhead-Jones Farm Tenant Act 204–206, 215, 220
Gully-control and revegetative experiments in the Red Plains region. H. M. Elwell, J. W. Slosser, and Harley A. Daniel 17–19, 20

HADLEY, J. NIXON: Wind Erosion Damage Checked in Navajo Land. With David Rogers 42–43
HALE, FRANK J.: It Was Utah's "Dust Bowl" 38–40
HARPER, FRANK B.: Rehabilitation of Oregon Range 227, 231
Hay, greater acreage, how to use. A. T. Semple 68–70, 72
HAYNES, J. L.: Run-Off Under Different Systems of Grassland Management With H. C. Knoblauch 256–258
HEIN, M. A.: Grazing Management for Permanent Pastures in Corn Belt and Northeastern States 248–250
